

FUTURE ENERGY EAST AFRICA

CONFERENCE & EXPO

12 – 13 SEPTEMBER 2018

KICC
Nairobi, Kenya

CONFERENCE PROGRAMME AT A GLANCE

The Future Energy East Africa conference (formally known as EAPIC) celebrates its 20th year by embracing knowledge sharing and capacity building in the region.

Power projects can take significant time to implement and, therefore, the two-day strategic conference provides a platform for imperative discussion. This September, we bring together the East Africa's power decision makers to provide a road map for Kenya's 'big four' agenda. The focus of conversation will also be to find out if the region's electricity industry has matured to cease REFIT and commence to total tendering. Furthermore, we consider the growing appetite for renewable energy in emerging markets, amongst other topical issues.

WEDNESDAY, 12 SEPTEMBER 2018

AM	Organiser's Welcome
	Host ministry welcome address East Africa's power decision makers: the game plan for the 'big four' agenda
PM	Feed –in –tariffs or auctions? <ul style="list-style-type: none"> Has the East African electricity industry matured to cease REFIT and commence to total tendering? Will auctions spur significant growth in the renewable energy sector?
	Plans to leverage the looming excess generation to support regional interconnectivity and energy trading
	The growing appetite for renewable energy in emerging markets <ul style="list-style-type: none"> An outline of the regulation of interment renewable technologies

THURSDAY, 13 SEPTEMBER 2018
